Hungarian tax number: 25110632-2-09

EU VAT number: HU25110632

Representative: Ferenc Kutas, Managing Director

Contact email: info@legacyofsolgame.com

Phone: +36 70 770 40 66

Website: legacyofsolgame.com

2. Scope and conclusion of the contract

These Terms apply to Legacy of Sol™ supporter display packages ordered on legacyofsolgame.com, the related electronic display service, payment, invoicing and bonus entitlements linked to eligible tiers.

The online service is available with a billing address in an EU Member State. The customer may act as a private individual or business. Consumers retain the rights granted by mandatory consumer law.

Before starting payment, the customer is given access to and accepts these Terms and the Privacy Notice. The contract is concluded electronically when the order is submitted and successful payment is confirmed server-side. Until card payment is finally submitted on the payment-provider interface, the customer may abandon the payment process.

3. Purchased service and bonuses

The purchased service is a supporter display service. Legacy of Sol™ is under development; payment of the package fee is not the purchase of a finished game and is not a game pre-order.

The package fee is consideration for the online supporter display service associated with the selected tier. After successful payment, the system electronically provides access to configure supporter display data. If the customer enables public display, the name and any logo or link included in the tier may appear on the supporter surface only after prior approval by the Service Provider.

A game copy, early access, alpha/beta testing access and development-feedback opportunities linked to Settler or higher tiers are bonuses with no separately allocated price and are not the main subject of the purchased display service.

No package provides ownership, intellectual-property rights, development decision or approval rights, business participation or gameplay advantage.

4. Supporter tiers

- Supporter: HUF 1,000–11,999 / EUR 3–34 – name on the online Supporters Wall.
- Settler: HUF 12,000–49,999 / EUR 35–139 – enhanced online display; bonus: digital copy of the full game at release.

- Explorer: HUF 50,000–99,999 / EUR 140–274 – display service; bonuses: early access, closed beta, bug reporting and feedback; name in end credits.
- Founder: HUF 100,000–999,999 / EUR 275–2,749 – enhanced display; bonuses: early alpha and priority tester feedback; name and logo in end credits.
- Patron: from HUF 1,000,000 / EUR 2,750 – prominent name/logo display; bonuses: priority access to early test builds and closer developer feedback; display on the game's supporter opening surface.

HUF and EUR ranges are separate fixed tier bands, not daily exchange-rate conversions. A Hungarian billing country uses HUF; another supported EU Member State uses EUR.

5. Operation of the supporter display service

Following successful payment, the system automatically creates supporter-display editing access and sends a unique access link. The customer may enter or update the display name, optional supporter message, eligible logo and website link.

Public display is optional. When enabled and saved by the customer, the submitted display name, logo and website link are subject to prior administrator review and appear only after approval. Publication of an optional supporter message requires a separate customer choice and separate administrator approval. Later changes to the display name, logo or website link require renewed profile approval, while changes to the supporter message require renewed approval of the message. If public display is disabled, the system does not publish the customer's display data.

The Service Provider may refuse publication of a name, logo, link or supporter message that is unlawful, misleading, hateful, pornographic or obscene, intended for political campaigning, points to harmful content, or is clearly incompatible with the Legacy of Sol™ identity or the purpose of the supporter surface. When requesting publication of a supporter message, the customer agrees that before publication the Service Provider may correct, shorten or edit it for spelling, stylistic or moderation purposes, including partially masking offensive or inappropriate expressions, provided that the substantive meaning of the message is not changed. Consent to publish the message may be withdrawn at any time through the editing interface. If content is refused, replacement content may be submitted for approval. Approval is a condition of public publication but does not delay provision of editing access after successful payment.

Ordering on supporter surfaces is primarily by package fee descending and alphabetically by displayed name for equal amounts. Size, position and visual presentation may adapt to the number of supporters and the design of the relevant surface.

6. Game-related bonus entitlements

Game copy, early access, alpha/beta testing and development-feedback opportunities are bonuses linked to eligible tiers with no separate consideration. Test builds may be incomplete, contain errors or be temporarily unavailable. Details, technical requirements and timing may reasonably change during development without changing the main purchased service.

7. Prices, payment, VAT and invoicing

The package fee and currency are determined by billing country: HUF for Hungary and EUR for other supported EU Member States. Before payment, checkout displays the amount, currency, supporter tier and VAT applied to the transaction.

Card payments may be processed by Stripe and, for Hungarian HUF payments where enabled, OTP SimplePay. A transaction is successful only when server-side confirmation from the payment provider matches the order amount and currency.

For private customers, VAT is determined under the rules applicable to the place of supply, electronically supplied services and the OSS scheme, together with the Service Provider's VAT treatment applicable at the time of the order. Checkout displays the VAT treatment applied before payment. For EU business customers, a valid EU VAT number is required where reverse charge is claimed and may be verified through VIES.

After successful payment the Service Provider issues a normal invoice for the supporter display service. This structure is not a game pre-order; no advance invoice and later game-release final invoice are created under this model. Invoice

currency matches payment currency. If automatic invoicing fails, the invoice may be created later through an administrator retry.

8. Performance and confirmation

At checkout, a consumer separately requests that performance begin before expiry of the 14-day withdrawal/cancellation period. Performance begins after successful payment when unique editing access and the supporter-display system are made available.

One supporter confirmation email is sent after successful payment. Hungarian public-site orders receive Hungarian email; all other language versions receive English email. The message contains the editing link, PDF copies of the legal documents relating to the contract and, where the automatic invoice is already available, a secure invoice-download option.

Game-related bonuses are performed according to development progress and feature availability. The current development target is public release in the second half of 2027; this is a development target and not a guaranteed release date.

9. Withdrawal, cancellation and refunds

A consumer has the statutory withdrawal/cancellation rights applicable to distance service contracts, generally for 14 days from conclusion of the contract. Detailed rules are set out in the Withdrawal, Cancellation and Refund Information.

If performance begins at the consumer's request during the 14-day period and the consumer subsequently lawfully cancels, the proportionate price for the service performed until notice may be accounted for as permitted by law.

As a separate contractual commitment, if the final Legacy of Sol™ game has not become publicly available by 31 December 2027, a holder of a Settler or higher tier may request refund of the package fee paid. This commitment does not alter or extend the statutory 14-day period.

10. Complaints and remedies

Customer-service enquiries and complaints may be submitted to info@legacyofsolgame.com or +36 70 770 40 66. Consumers may contact the competent conciliation body, consumer-protection authority or court under applicable law.

The conciliation body available according to the Service Provider's registered office is Hajdú-Bihar County Conciliation Board (Hajdú-Bihar Vármegyei Békéltető Testület), 4025 Debrecen, Vörösmarty u. 13–15., Hungary; email: bekelteto@hbkik.hu; phone: +36 52 500 710, +36 52 500 745; website: hmbekeltetes.hu.

11. Intellectual property and liability

The Legacy of Sol™ brand, graphics, written content, game world and original website elements may be protected by intellectual-property rights. The supporter package does not transfer ownership or licence rights beyond the expressly stated supporter benefits. The customer warrants that they are entitled to use the name, logo, website link and supporter message they submit and grants the Service Provider a non-exclusive, royalty-free licence, to the extent necessary to perform the display service, to publish and technically resize or format such content and to moderate the supporter message as described in Section 5 of these Terms.

The Service Provider is not responsible for temporary failures of internet, banking or third-party payment infrastructure outside its control, but will take reasonable steps to resolve erroneous payments, invoicing failures and access problems within its own systems.

12. Final provisions

Hungarian law and applicable EU law govern matters not regulated by these Terms. The Service Provider may amend the Terms when the service or legal environment changes. Contracts already concluded remain governed by the version accepted at conclusion unless mandatory law requires otherwise.
